CONCORD Operational Reporting Department  
 On behalf of DED Special Operations  
 Pure Blind Regional Division  
 X-70MU IV, Moon 3 Sisters of EVE Academy

SUBJECT: Further Intergalactic Summit communications on classified activity  
 CA: Incident report on unusual Sansha fleet activity  
 RELATED REPORTS: ISHAEKA-0015-6

THRU:  
 Inner Assembly Directorate  
 ATTN: Vieve Creston, Operational Director, Taskforce Ishaeka  
 Yulai VIII - Inner Circle Tribunal

1. TIME:

14:51:00 10.05.111

2. SUBJECT:

[SYNE] :Urgent: Reactivation of the Accord, Investigation Launched

3. CONTENT:

As of this moment, the Synenose Accord has been reactivated. We have received actionable intelligence to begin the assembling of an Expedition, and will begin conducting exploratory operations.

We have received classified documents indicating that there might be third party factions at work inside w-space, besides the Sleepers or the Capsuleers. This is a disturbing development, and indicates a possible destabilization of astropolitical affairs, not to mention the security of w-space. It might even be possible that this faction is in some way communicating with the Sleepers.

Our need for pilots is urgent. If you have combat and exploration-oriented skill sets, please contact me.

Our channel: SynePublic

4. MEDIA:

No new coverage. Media Block in effect. Media Block with ISD negotiated.

5. ANALYSIS:

Acting CEO Justin Vallar has reactivated The Synenose Accord. Vallar references the acquisition of classified material as the motivating factor behind the revival of the corporation. He has called for more capsuleer assistance and established a public communication network to coordinate this.

6. PLANNED ACTIONS:

- > Monitor communication for any developments.
- > Raise priority surveillance on Synenose Accord to Class B.
- > Consult with Inner Assembly on the extent of our jurisdiction.
  - >> If given clearance, reset all CONCORD standings with [SYNE].
  - >> Discuss further actions that may be taken.
